

OLEJ SERVICES LIMITED

Company Profile

- Specialized tank Cleaning
- Heat Exchanger Maintenance
- Flange Management Services
- Hydrojetting Services

INTRODUCTION

Founded on the principles of innovation, quality, and integrity, Olej Services Limited has established itself as a trusted partner for industries seeking exceptional maintenance and repair solutions. Our team of visionary leaders, expert technicians, and passionate professionals shares a common goal: to transform the industrial landscape through cutting-edge services.

Oil & Gas Industry

COMPANY BACKGROUND

At Olej Services Limited, we revolutionize the way industries approach maintenance and repair. As a pioneering specialist in tank cleaning, heat exchanger maintenance, flange management, and hydrojetting services, we empower our clients to achieve unparalleled efficiency, reliability, and safety.

Our Vision

At Olej Services Limited, our mission is to redefine industrial maintenance and repair standards. We strive to:

- Deliver exceptional service quality, ensuring client satisfaction and asset reliability.
- Foster long-term partnerships built on trust, transparency, and open communication.
- Drive innovation, investing in cutting-edge technologies and techniques to stay ahead of the curve.
- Prioritize safety, integrity, and environmental responsibility in all our operations.

Our Mission

Using our resource of highly trained experts and experienced professionals with an aggregate of over 10 years Oil & Gas experience, we are uniquely positioned to deliver world class services to our clients and partners by deploying modern technological applications to help integrate solutions.

COMPETENCIES

The individuals making up our formidable team have facilitated and supported the delivery of services in the following areas:

1. **Specialized Tank Cleaning:** Our state-of-the-art equipment and proprietary techniques ensure safe, efficient, and environmentally responsible tank cleaning, restoring optimal storage capacity and product quality. Duration depends on the condition of the tank, however to clean one tank will take us about 35 days, we use the vacuum recovery unit and air compressor to remove the sludge from the tank.
2. **Heat Exchanger Maintenance Services:** Our comprehensive solutions encompass cleaning, repair, and replacement services, guaranteeing leak-free connections, optimal heat transfer, and extended equipment lifespan.
3. **Flange Management Services:** Our expert technicians provide flange maintenance, repair, and replacement services, ensuring tight, leak-free connections and minimizing downtime.
4. **Hydrojetting Services:** We harness the power of high-pressure hydrojetting technology to clean and maintain pipelines, heat exchangers, and equipment, restoring optimal flow rates, efficiency, and performance.
5. **Hydrotest**
6. **Deck Cleaning**
7. **Vessel Cleaning**

QUALITY CONTROL

The OLEJ SERVICES LTD team understands the essence of Quality and that pursuit of quality is reflected through each and every person within the company. It is a core part of our corporate existence never to compromise on quality and to ensure that we do everything we do competently at whatever cost including out sourcing agreements with state of the art Laboratories which are extensively equipped to test petroleum products to international standards (ASTM, ISO, EI, IP etc) for Crude oil, Gasoline, Kerosene's, Gas oil, Fuel oils and other petroleum products wherever we find that our own internal resources may fall short.

QUANTITY VERIFICATION

Movement of bulk petroleum imports/exports require lighter operations (ship to ship) offshore as well as discharges at an SBM's (single buoy mooring), Trucking and alongside jetties. OLEJ SERVICES LTD recruited quality experts with many years of experience

in cargo monitoring, quantification, and loss control to exercise fair deals in the interest of our clients sending updated information on all operational goings on, thereby continuously bridging the gap between the client and the transaction.

PRICING

Our conversant with the Oil & Gas industry and our extensive network within the global oil trading industry means we are able to access all of the necessary resources on demand and verify quoted petroleum prices at any time with respect to any trading scenario i.e. spot, futures or options.

Each member of our team also maintains useful individual contacts within the industry and has access to our corporate resources for fulfilling this aspect of our obligations,

SUPERCARGO SERVICES

We employ experienced cargo superintendents with particular experience in the loading and discharging of bulk cargo mainly in the oil and gas industry. Our staff work closely with other vessel agents, operators and owners to ensure cargo/ vessel optimization as well as fast and effective trucking, providing the client regular and timely information on the cargo and carriage vessel in charter or truck on transits.

CLIENTS

Our people have played significant roles in managing and even pioneering the delivery of the afore-mentioned services and as a part of corporate entities including:

- Nigerian Agip Oil Company
- Sobaz Nig. Ltd.
- Ringards Nigeria Limited
- Bono Energy
- Belema Oil J+G Global
